Subject Index

Acetylcholine

- newly recognized congenital myasthenic syndrome attributed to prolonged open time of acetylcholine-induced ion channel (Engel et al), 553

Acid-base equilibrium

- cerebrospinal fluid acid-base balance in newborns (Hermansen and Ellison), 344

Acidosis

- D-lactic acidosis simulating a hypothalamic syndrome after bowel bypass (Carr et al), 195

Adenovirus infections, human

- inclusion-body myositis, clinicopathological studies and isolation of an adenovirus type 2 from muscle biopsy specimen (Mikol et al), 576

Ad hoc reviewers, 27

Adrenal gland hypofunction

- value of C26:0 fatty acid determination for diagnosis of atypical adrenoleukodystrophy (Philippart et al), LETTER, 105

Age factors

- sympathetic nerves exert a chronic influence on intact vasculature that is age related (Rusterholz and Mueller), 365

Alaska

- distemper and multiple sclerosis in Sitka, Alaska (Cook and Dowling), 192

Alzheimer disease

- intrusions as a sign of Alzheimer dementia, chemical and pathological verification (Fuld et al), 155

Ammonia, blood

- valproate-induced hyperammonemia (Batshaw and Brusilow), 319

Ammonia, metabolism

- ammonia metabolism in Reye syndrome and effect of citrulline (DeLong and Glick), 53

Amygdaloid body, pathology

- intradentate colchicine retards development of amygdala kindling (Dasheiff and McNamara), 347

Amylases, blood

- monitoring of serum amylase levels during valproic acid therapy (Bale et al), NOTE, 217

Amyotrophic lateral sclerosis

- glial outgrowth along spinal nerve roots in amyotrophic lateral sclerosis (Ghatak and Nochlin), 203

Anterior horn cells, physiopathology

- juvenile spinal muscular atrophy, new hexosaminidase deficiency phenotype (Johnson et al), 11

Aphasia

- slowly progressive aphasia without generalized dementia (Mesulam), 592

Arachnoiditis, therapy

- chronic mycotic meningitis with spinal involvement (arachnoiditis), report of five cases (Stein et al), 519

Arteritis

- necrotizing arteritis and spinal subarachnoid hemorrhage in Sjögren syndrome (Alexander et al), 632

Astrocytes, pathology

- early proliferative changes in astrocytes in postischemic noninfarcted rat brain (Petito and Babiak), 510

Astrocytoma

- central neurogenic hyperventilation in an awake patient with brainstem astrocytoma (Rodriguez et al), 625

Azathioprine

- influence of azathioprine (Imuran) on in vitro immune function in multiple sclerosis (Oger et al), 177
- plasmapheresis and immunosuppressive drug therapy in Eaton-Lambert syndrome (Dau and Denys), 570

B-lymphocytes

- clonally restricted B cells in peripheral blood of multiple sclerosis patients: kappa/lambda staining patterns (Hauser et al), 408

Baclofen

- baclofen as a treatment for nystagmus (Larmande), LETTER, 213

Basal cell nevus syndrome

- nevroid basal cell carcinoma syndrome and epilepsy (Murphy and Tenser), 372

Biopsy

- primary cerebellopontine progressive multifocal leukoencephalopathy diagnosed premortem by cerebellar biopsy (Jones et al), 199

Blood cells, immunology

- mechanisms underlying cellular aggregation and other membrane phenomena in multiple sclerosis (Bauer et al), CONFERENCE REPORT, 207

Blood chemical analysis

- carbamazepine and hematological monitoring (Hart and Easton), 309

Blood donors

- convulsive syncope in blood donors (Lin et al), 525

Books

- brief reviews, 108, 220, 326, 436, 546
- Antidepressants: Neurochemical, Behavioral and Clinical Perspectives*, edited by Enna et al (Pulsinelli), 639
- Electrolytes and Neuropsychiatric Disorders*, edited by Alexander (Pulsinelli), 639
- Handbook of Behavioral Neurobiology. Vol 4, Biological Rhythms*, edited by Aschoff (Caronna), 639
- Head Injury*, by Bakay and Glasauer (Marshall), 108
- Neurotransmitters and Their Receptors*, edited by Littauer et al (Pulsinelli), 639
- Pediatric Neurology*, by Rose (Golden), 326
- Textbook of Child Neurology*, Second edition, by Menkes (Golden), 326
- Transmitter Biochemistry of Human Brain Tissue*, edited by Riederer and Usdin (Pulsinelli), 639

Brain abscess

- ocular tilt reaction due to upper brainstem lesion: paroxysmal skew deviation, torsion, and oscillation of the eyes with head tilt (Hedges and Hoyt), 537

Brain chemistry

- biochemical findings in a case of parkinsonism secondary to brain tumor (García de Yébenes et al), 313

Brain diseases

- putaminal lesions in Leigh disease (Weisberg), LETTER, 638; reply (Schwartz and Berg), LETTER, 638

Brain neoplasms

- central neurogenic hyperventilation in an awake patient with brainstem astrocytoma (Rodriguez et al), 625
- solitary intracranial plasmacytoma, two patients with extended follow-up (Krumholz et al), 529

- sylvian aqueduct syndrome caused by unilateral mid-brain lesion (Auerbach et al), 91
- Brainstem, pathology**
encephalomyeloneuropathy with ganglionitis of myenteric plexuses in the absence of cancer (Horoupian and Kim), 628
- Brainstem, physiopathology**
binaural voltage summation of brainstem auditory evoked potentials, adjunct to the diagnostic criteria for multiple sclerosis (Prasher et al), 86
brainstem auditory evoked responses and alpha-pattern coma (Hari et al), 187
- Carbamazepine, adverse effects**
carbamazepine and hematological monitoring (Hart and Easton), 309
- Carnitine, deficiency**
evidence for autosomal recessive inheritance in systemic carnitine deficiency (Di Donato et al), 190
- Cell differentiation**
hematogenous origin of inflammatory response in acute poliomyelitis (Wolinsky et al), 59
- Cell membrane, immunology**
mechanisms underlying cellular aggregation and other membrane phenomena in multiple sclerosis (Bauer et al), CONFERENCE REPORT, 207
- Cell membrane permeability**
periodic paralysis and the sodium-potassium pump (Layzer), NEUROLOGICAL PROGRESS, 547
- Central nervous system diseases**
experimental models of virus-induced demyelination of the central nervous system (Dal Canto and Rabinowitz), NEUROLOGICAL PROGRESS, 109
- Cerebellar ataxia, physiopathology**
shortening reaction in patients with cerebellar ataxia (Angel), 272
- Cerebellum, pathology**
primary cerebellopontine progressive multifocal leukoencephalopathy diagnosed premortem by cerebellar biopsy (Jones et al), 199
- Cerebral anoxia**
local cerebral glucose metabolism in newborn dogs, effects of hypoxia and halothane anesthesia (Duffy et al), 233
regulation of local cerebral blood flow in normal and hypoxic newborn dogs (Cavazzuti and Duffy), 247
- Cerebral aqueduct, physiopathology**
sylvian aqueduct syndrome caused by unilateral mid-brain lesion (Auerbach et al), 91
- Cerebral cortex, metabolism**
local cerebral glucose metabolism in newborn dogs, effects of hypoxia and halothane anesthesia (Duffy et al), 233
- Cerebral hemorrhage**
cerebral blood flow after experimental basal ganglia hemorrhage (Ropper and Zervas), 266
- Cerebral ischemia, transient**
early proliferative changes in astrocytes in postischemic noninfarcted rat brain (Petito and Babiak), 510
regional cerebral blood flow and glucose metabolism following transient forebrain ischemia (Pulsinelli et al), 499
temporal profile of neuronal damage in a model of transient forebrain ischemia (Pulsinelli et al), 491
- Cerebrospinal fluid**
cerebrospinal fluid, a selective review (Cutler and Spertell), NEUROLOGICAL PROGRESS, 1
- Cerebrospinal fluid, analysis**
cerebrospinal fluid acid-base balance in newborns (Hermansen and Ellison), 344
- Cerebrovascular circulation**
cerebral blood flow after experimental basal ganglia hemorrhage (Ropper and Zervas), 266
regional cerebral blood flow and glucose metabolism following transient forebrain ischemia (Pulsinelli et al), 499
regulation of local cerebral blood flow in normal and hypoxic newborn dogs (Cavazzuti and Duffy), 247
- Cerebrovascular disorders**
diagnosis of stroke by CPK isoenzymes (Lipton and Samuels), LETTER, 434
- Chromosome abnormalities**
evidence for autosomal recessive inheritance in systemic carnitine deficiency (Di Donato et al), 190
- Citrulline**
ammonia metabolism in Reye syndrome and effect of citrulline (DeLong and Glick), 53
- Clonazepam**
clonazepam and pregnancy (Kriel and Cloyd), LETTER, 544
- Cognition disorders**
cognition in Parkinson disease, an event-related potential perspective (Hansch et al), 599
- Coma**
brainstem auditory evoked responses and alpha-pattern coma (Hari et al), 187
- Conference report**
mechanisms underlying cellular aggregation and other membrane phenomena in multiple sclerosis (Bauer et al), CONFERENCE REPORT, 207
- Consciousness**
central neurogenic hyperventilation in an awake patient with brainstem astrocytoma (Rodriguez et al), 625
- Craniopharyngioma**
biochemical findings in a case of parkinsonism secondary to brain tumor (García de Yébenes et al), 313
- Creatine kinase isoenzymes, analysis**
diagnosis of stroke by CPK isoenzymes (Lipton and Samuels), LETTER, 434
- Creutzfeldt-Jakob syndrome. See Jakob-Creutzfeldt syndrome**
- Dementia**
slowly progressive aphasia without generalized dementia (Mesulam), 592
- Demyelinating diseases**
acute conduction block associated with experimental antiserum-mediated demyelination of peripheral nerve (Sumner et al), 469
association between rise in serum sodium and central pontine myelinolysis (Norenberg et al), 128
distribution of papovavirus, myelin-associated glycoprotein, and myelin basic protein in progressive multifocal leukoencephalopathy lesions (Itayama et al), 396
experimental models of virus-induced demyelination of the central nervous system (Dal Canto and Rabinowitz), NEUROLOGICAL PROGRESS, 109
in vivo demyelinating activity of sera from patients with Guillain-Barré syndrome (Saida et al), 69
value of C26:0 fatty acid determination for diagnosis of atypical adrenoleukodystrophy (Philippart et al), LETTER, 105
- Demyelinating diseases, drug therapy**
prednisone improves chronic inflammatory demyelinating

- Demyelinating diseases, drug therapy** (*continued*)

incomplete manifestations of myotonic dystrophy in a large kinship in Labrador (Pryse-Phillips et al), 582
- Letter on the law
termination of life support in vegetative states: New York court sets guidelines for private decisions (Beresford), 103
- Leukodystrophy, globoid cell
computed tomography in diagnosis of Canavan's disease (Andriola), LETTER, 323
- Leukoencephalopathy, progressive multifocal
distribution of papovavirus, myelin-associated glycoprotein, and myelin basic protein in progressive multifocal leukoencephalopathy lesions (Itoyama et al), 396
primary cerebellopontine progressive multifocal leukoencephalopathy diagnosed premortem by cerebellar biopsy (Jones et al), 199
progressive multifocal leukoencephalopathy in myasthenia gravis (Dawson), NOTE, 218
- Life support care
termination of life support in vegetative states: New York court sets guidelines for private decisions (Beresford), LETTER ON THE LAW, 103
- Lithium
lithium therapy in torsion dystonia (Marti-Masso et al), LETTER, 106

- Locked-in syndrome**
locked-in syndrome for 12 years with preserved intelligence (Cappa and Vignolo), LETTER, 545
- Lymphocytes**
cell-mediated immunity in multiple sclerosis as determined by sensitivity of different lymphocyte populations to various brain tissue antigens (Brinkman et al), 450
neuraminidase deficiency and accumulation of sialic acid in lymphocytes in adult type sialidosis with partial β -galactosidase deficiency (Tsuji et al), 541
neuroimmunology I: immunoregulation in neurological disease (Weiner and Hauser), NEUROLOGICAL PROGRESS, 437
- Lysosomes, ultrastructure**
adjunctive tests for the mucopolysaccharidoses (Kelly), LETTER, 213; reply (Markesbery), LETTER, 213
- Macroglobulinemia**
macroglobulinemia with peripheral neuropathy simulating motor neuron disease (Rowland et al), 532
- Memory disorders**
intrusions as a sign of Alzheimer dementia, chemical and pathological verification (Fuld et al), 155
- Meningitis**
chronic mycotic meningitis with spinal involvement (arachnoiditis), report of five cases (Stein et al), 519
- Meningitis, viral**
isolation of herpes simplex virus type 1 in recurrent (Mollaret) meningitis (Steel et al), 17
- Metabolism, inborn errors**
inborn errors of metabolism (Kolodny and Cable), NEUROLOGICAL PROGRESS, 221
- Metoclopramide**
chronic dysarthria and metoclopramide (Walsh), LETTER, 545
- Migraine**
prolonged migraine aura status (Haas), 197
"propranolol-associated" visual reduction: not an effect of propranolol (Ellenberger), LETTER, 637; role of beta-blockers in migraine (Kemperman), LETTER, 637; tunnel vision and factitious mydriasis? (Corbett and Thompson), LETTER, 637; reply (Parrish and Todorov), LETTER, 638
- Mitogens**
PPD-, PWM-, and PHA-induced interferon in stable multiple sclerosis, association with HLA-Dw2 antigen and clinical variables (Salonen et al), 279
- Motor neurons, pathology**
benign motor neuron disorder: delayed cramps and fasciculation after poliomyelitis or myelitis (Fetell et al), 423
macroglobulinemia with peripheral neuropathy simulating motor neuron disease (Rowland et al), 532
- Movement disorders, drug therapy**
treatment of hyperkinetic movement disorders with tetrabenazine, double-blind crossover study (Jan-kovic), 41
- Mucopolysaccharidoses**
adjunctive tests for the mucopolysaccharidoses (Kelly), LETTER, 213; reply (Markesbery), LETTER, 213
- Multiple sclerosis**
distemper and multiple sclerosis in Sitka, Alaska (Cook and Dowling), 192
mechanisms underlying cellular aggregation and other membrane phenomena in multiple sclerosis (Bauer et al), CONFERENCE REPORT, 207
- Multiple sclerosis, blood**
clonally restricted B cells in peripheral blood of multiple sclerosis patients: kappa/lambda staining patterns (Hauser et al), 408
- Multiple sclerosis, diagnosis**
binaural voltage summation of brainstem auditory evoked potentials, adjunct to the diagnostic criteria for multiple sclerosis (Prasher et al), 86
- Multiple sclerosis, drug therapy**
influence of azathioprine (Imuran) on in vitro immune function in multiple sclerosis (Oger et al), 177
- Multiple sclerosis, immunology**
cell-mediated immunity in multiple sclerosis as determined by sensitivity of different lymphocyte populations to various brain tissue antigens (Brinkman et al), 450
defective mitogenic responses in myasthenia gravis and multiple sclerosis (Dropcho et al), 456
multiple sclerosis: heterology among early T cells and T_G cells (Traugott et al), 182
PPD-, PWM-, and PHA-induced interferon in stable multiple sclerosis, association with HLA-Dw2 antigen and clinical variables (Salonen et al), 279
- Multiple sclerosis, in infancy and childhood**
childhood multiple sclerosis: clinical features and demonstration of changes in T cell subsets with disease activity (Hauser et al), 463
- Multiple sclerosis, therapy**
multiple sclerosis: trial of a synthetic polypeptide (Bornstein et al), 317
- Muscle contraction**
shortening reaction in patients with cerebellar ataxia (Angel), 272
- Muscle dystonia, drug therapy**
lithium therapy in torsion dystonia (Marti-Masso et al), LETTER, 106
- Muscular atrophy**
juvenile spinal muscular atrophy, new hexosaminidase deficiency phenotype (Johnson et al), 11
- Myasthenia gravis**
progressive multifocal leukoencephalopathy in myasthenia gravis (Dawson), NOTE, 218
- Myasthenia gravis, immunology**
defective mitogenic responses in myasthenia gravis and multiple sclerosis (Dropcho et al), 456
interaction of myasthenic immunoglobulins and cholinergic agonists on acetylcholine receptors of rat myotubes (Ashizawa et al), 22
monoclonal antibody analysis of blood T-cell subsets in myasthenia gravis (Skolnik et al), 170
nerve stimulation test in murine experimental autoimmune myasthenia gravis (Pachner and Kantor), 48
- Myasthenia gravis, therapy**
rapid improvement of myasthenia gravis after plasma exchange (Nielsen et al), 160
- Myasthenic syndrome, congenital**
newly recognized congenital myasthenic syndrome attributed to prolonged open time of acetylcholine-induced ion channel (Engel et al), 553
- Myasthenic syndrome, therapy**
plasmapheresis and immunosuppressive drug therapy in Eaton-Lambert syndrome (Dau and Denys), 570
- Myelin proteins**
cell-mediated immunity in multiple sclerosis as determined by sensitivity of different lymphocyte populations to various brain tissue antigens (Brinkman et al), 450

- Myelin proteins, analysis**
distribution of papovavirus, myelin-associated glycoprotein, and myelin basic protein in progressive multifocal leukoencephalopathy lesions (Itoyama et al), 396
- Myelin sheath**
selective fiber vulnerability in acute ischemic neuropathy (Parry and Brown), 147
- Myelin sheath, pathology**
myelin and Schwann cell abnormalities in Isaac's syndrome (Harik), NOTE, 544
- Myenteric plexus, pathology**
encephalomyeloneuropathy with ganglionitis of myenteric plexuses in the absence of cancer (Horoupian and Kim), 628
- Myoclonus, drug-induced**
myoclonus and ocular oscillations induced by L-tryptophan (Baloh et al), 95
- Myositis**
inclusion-body myositis, clinicopathological studies and isolation of an adenovirus type 2 from muscle biopsy specimen (Mikol et al), 576
- Myotonia atrophica**
taurine and hyperexcitable human muscle, effects of taurine on potassium-induced hyperexcitability of dystrophic myotonic and normal muscles (Durelli et al), 258
- Myotonia atrophica, congenital**
incomplete manifestations of myotonic dystrophy in a large kinship in Labrador (Pryse-Phillips et al), 582
- Neoplasm metastasis**
anterior decompression of the spine for metastatic epidural cord compression, promising avenue of therapy? (Siegal et al), 28
ulnar F-wave conduction velocity in epidural metastatic root lesions (Ongerboer de Visser et al), 142
- Nervous system diseases, immunology**
neuroimmunology I: immunoregulation in neurological disease (Weiner and Hauser), NEUROLOGICAL PROGRESS, 437
- Neural conduction**
acute conduction block associated with experimental antiserum-mediated demyelination of peripheral nerve (Sumner et al), 469
neurons in human epileptic cortex, correlation between unit and EEG activity (Wyler et al), 301
ulnar F-wave conduction velocity in epidural metastatic root lesions (Ongerboer de Visser et al), 142
- Neuraminidase, deficiency**
neuraminidase deficiency and accumulation of sialic acid in lymphocytes in adult type sialidosis with partial β -galactosidase deficiency (Tsuji et al), 541
- Neuroaxonal dystrophy**
neuroaxonal dystrophy in young adults, clinicopathological study of two unrelated cases (Williamson et al), 335
- Neuroglia**
case of congenital Werdnig-Hoffmann disease with glial bundles in spinal roots (Mitsumoto et al), NOTE, 214
glial outgrowth along spinal nerve roots in amyotrophic lateral sclerosis (Ghatak and Nochlin), 203
- Neurological progress**
cerebrospinal fluid, a selective review (Cutler and Spertell), 1
experimental models of virus-induced demyelination of the central nervous system (Dal Canto and Rabinowitz), 109
inborn errors of metabolism (Kolodny and Cable), 221
neuroimmunology I: immunoregulation in neurological disease (Weiner and Hauser), 437
periodic paralysis and the sodium-potassium pump (Layzer), 547
presidential address: thirty years of progress and problems in clinical neurology (Rowland), 327
- Neurology**
presidential address: thirty years of progress and problems in clinical neurology (Rowland), NEUROLOGICAL PROGRESS, 327
- Neuromuscular diseases**
benign motor neuron disorder: delayed cramps and fasciculation after poliomyelitis or myelitis (Fetell et al), 423
- Neuromuscular junction**
interaction of myasthenic immunoglobulins and cholinergic agonists on acetylcholine receptors of rat myotubes (Ashizawa et al), 22
newly recognized congenital myasthenic syndrome attributed to prolonged open time of acetylcholine-induced ion channel (Engel et al), 553
- Neuroregulators, deficiency**
dopaminergic deficiency and delayed visual evoked potentials in humans (Bodis-Wollner et al), 478
dopaminergic deficiency causes delayed visual evoked potentials in rats (Onofri and Bodis-Wollner), 484
- Neurosyphilis**
Lissauer form of parietic neurosyphilis: forgotten but not gone (Cohen et al), LETTER, 219
- Neurosyphilis, immunology**
neurosyphilis: intrathecal synthesis of oligoclonal antibodies to *Treponema pallidum* (Vartdal et al), 35
- Nevoid basal cell carcinoma syndrome. See Basal cell nevus syndrome**
- Nucleic acid hybridization**
detection of herpes simplex virus mRNA in latently infected trigeminal ganglion neurons by in situ hybridization (Tenser et al), 285
- Nystagmus, drug therapy**
baclofen as a treatment for nystagmus (Larmande), LETTER, 213
- Obituary**
Derek Ernest Denny-Brown, 1901-1981 (Foley), OBITUARY, 413
- Occipital lobe**
asymmetrical volumes of right and left frontal and occipital regions of the human brain (Weinberger et al), 97
- Optic neuritis**
prognostic indicators in optic neuritis (Cox), LETTER, 324; reply (Nikoskelainen), LETTER, 324
- Organ weight**
asymmetrical volumes of right and left frontal and occipital regions of the human brain (Weinberger et al), 97
- Papovaviridae**
distribution of papovavirus, myelin-associated glycoprotein, and myelin basic protein in progressive multifocal leukoencephalopathy lesions (Itoyama et al), 396
- Paralysis**
periodic paralysis and the sodium-potassium pump (Layzer), NEUROLOGICAL PROGRESS, 547

Paraplegia

recurrent paraplegia with total recovery from spontaneous spinal epidural hematoma (Hernandez et al), 623

Paraproteinemias

macroglobulinemia with peripheral neuropathy simulating motor neuron disease (Rowland et al), 532

solitary intracranial plasmacytoma, two patients with extended follow-up (Krumholz et al), 529

Parkinson disease

cognition in Parkinson disease, an event-related potential perspective (Hansch et al), 599

dopaminergic deficiency and delayed visual evoked potentials in humans (Bodis-Wollner et al), 478

low CSF GABA in parkinsonian patients who respond poorly to therapy or suffer from the "on-off" phenomenon (Teychenne et al), 76

Parkinson disease, symptomatic

biochemical findings in a case of parkinsonism secondary to brain tumor (García de Yébenes et al), 313

Pectoralis muscles, blood supply

intermittent venous claudication of upper extremity: the pectoralis minor syndrome (Nakada et al), NOTE, 433

Peptides

multiple sclerosis: trial of a synthetic polypeptide (Bornstein et al), 317

Peripheral nerves

acute conduction block associated with experimental antiserum-mediated demyelination of peripheral nerve (Sumner et al), 469

Peripheral nerves, pathology

myelin and Schwann cell abnormalities in Isaac's syndrome (Harik), NOTE, 544

Plasma exchange

rapid improvement of myasthenia gravis after plasma exchange (Nielsen et al), 160

Plasmacytoma

solitary intracranial plasmacytoma, two patients with extended follow-up (Krumholz et al), 529

Plasmapheresis

plasmapheresis and immunosuppressive drug therapy in Eaton-Lambert syndrome (Dau and Denys), 570

Platelet aggregation

"propranolol-associated" visual reduction: role of beta-blockers in migraine (Kemperman), LETTER, 637; reply (Parrish and Todorov), LETTER, 638

Poliomyelitis

hematogenous origin of inflammatory response in acute poliomyelitis (Wolinsky et al), 59

Polyradiculitis

thoracic root pain in diabetes, spectrum of clinical and electromyographic findings (Kikta et al), 80

Polyradiculoneuritis

inappropriate secretion of antidiuretic hormone associated with Guillain-Barré syndrome (Hochman et al), LETTER, 322

Polyradiculoneuritis, blood

in vivo demyelinating activity of sera from patients with Guillain-Barré syndrome (Saida et al), 69

Polyradiculoneuritis, drug therapy

prednisone improves chronic inflammatory demyelinating polyradiculoneuropathy more than no treatment (Dyck et al), 136

Pons, physiopathology

abnormal vertical eye movements in locked-in syndrome (Larmande et al), 100

association between rise in serum sodium and central pontine myelinolysis (Norenberg et al), 128

Potassium chloride

taurine and hyperexcitable human muscle, effects of taurine on potassium-induced hyperexcitability of dystrophic myotonic and normal muscles (Durelli et al), 258

Prednisone

plasmapheresis and immunosuppressive drug therapy in Eaton-Lambert syndrome (Dau and Denys), 570

prednisone improves chronic inflammatory demyelinating polyradiculoneuropathy more than no treatment (Dyck et al), 136

Pregnancy

clonazepam and pregnancy (Kriel and Cloyd), LETTER, 544

Propranolol

plasma propranolol in essential tremor (Marsden et al), LETTER, 107; reply (Sorensen et al), LETTER, 107

Propranolol, adverse effects

"propranolol-associated" visual reduction: not an effect of propranolol (Ellenberger), LETTER, 637; role of beta-blockers in migraine (Kemperman), LETTER, 637; tunnel vision and factitious mydriasis? (Corbett and Thompson), LETTER, 637; reply (Parrish and Todorov), LETTER, 638

Psychotic disorders

intensive monitoring of interictal psychosis in epilepsy (Ramani and Gumnit), 613

Putamen

putaminal lesions in Leigh disease (Weisberg), LETTER, 638; reply (Schwartz and Berg), LETTER, 638

Quadriplegia

locked-in syndrome for 12 years with preserved intelligence (Cappa and Vignolo), LETTER, 545

Receptors, cholinergic

interaction of myasthenic immunoglobulins and cholinergic agonists on acetylcholine receptors of rat myotubes (Ashizawa et al), 22

Research support

presidential address: thirty years of progress and problems in clinical neurology (Rowland), NEUROLOGICAL PROGRESS, 327

Reye syndrome, therapy

ammonia metabolism in Reye syndrome and effect of citrulline (DeLong and Glick), 53

RNA, messenger

detection of herpes simplex virus mRNA in latently infected trigeminal ganglion neurons by in situ hybridization (Tenser et al), 285

Schizophrenia

intensive monitoring of interictal psychosis in epilepsy (Ramani and Gumnit), 613

Schwann cells, pathology

myelin and Schwann cell abnormalities in Isaac's syndrome (Harik), NOTE, 544

Scrapie virus, analysis

measurement of scrapie agent using incubation time interval assay (Prusiner et al), 353

Seizures

complex partial seizures on closed-circuit television and EEG, study of 691 attacks in 79 patients (Escueta et al), 292

convulsive syncope in blood donors (Lin et al), 525

generalized paroxysmal fast activity: electroencephalo-

- graphic and clinical features (Brenner and Atkinson), 386
- hysterical seizures: suggestion as a provocative EEG test (Cohen and Suter), 391
- Seizures, chemically induced
- seizures associated with new combination "pick-me-up" pill (Mueller and Solow), LETTER, 322
- Seizures, drug therapy
- clonazepam and pregnancy (Kriel and Cloyd), LETTER, 544
- Sialic acids
- neuraminidase deficiency and accumulation of sialic acid in lymphocytes in adult type sialidosis with partial β -galactosidase deficiency (Tsuiji et al), 541
- Sinus thrombosis
- trichinosis associated with superior sagittal sinus thrombosis (Evans and Patten), NOTE, 216
- Sjögren's syndrome
- necrotizing arteritis and spinal subarachnoid hemorrhage in Sjögren syndrome (Alexander et al), 632
- Sneezing
- sneeze-induced hemiparesis (Fischbeck et al), LETTER, 105
- Spinal canal, pathology
- anterior decompression of the spine for metastatic epidural cord compression, promising avenue of therapy? (Siegal et al), 28
 - ulnar F-wave conduction velocity in epidural metastatic root lesions (Ongerboer de Visser et al), 142
- Spinal cord compression
- anterior decompression of the spine for metastatic epidural cord compression, promising avenue of therapy? (Siegal et al), 28
 - recurrent paraplegia with total recovery from spontaneous spinal epidural hematoma (Hernandez et al), 623
- Spinal cord neoplasms
- chronic mycotic meningitis with spinal involvement (arachnoiditis), report of five cases (Stein et al), 519
- Spinal nerve roots
- case of congenital Werdnig-Hoffmann disease with glial bundles in spinal roots (Mitsumoto et al), NOTE, 214
 - glial outgrowth along spinal nerve roots in amyotrophic lateral sclerosis (Ghatak and Nochlin), 203
- Stereotaxic techniques
- occipitotemporal epilepsy studied with stereotactically implanted depth electrodes and successfully treated by temporal resection (Olivier et al), 428
- Subacute sclerosing panencephalitis, drug therapy
- long-term follow-up of patients with subacute sclerosing panencephalitis treated with inosiplex (Dyken et al), 359
- Subarachnoid hemorrhage
- necrotizing arteritis and spinal subarachnoid hemorrhage in Sjögren syndrome (Alexander et al), 632
- Sural nerve, pathology
- myelin and Schwann cell abnormalities in Isaac's syndrome (Harik), NOTE, 544
- Sympathetic nervous system
- sympathetic nerves exert a chronic influence on intact vasculature that is age related (Rusterholz and Mueller), 365
- Syncope
- convulsive syncope in blood donors (Lin et al), 525
- T-lymphocytes
- childhood multiple sclerosis: clinical features and demonstration of changes in T cell subsets with disease activity (Hauser et al), 463
- defective mitogenic responses in myasthenia gravis and multiple sclerosis (Dropcho et al), 456
- monoclonal antibody analysis of blood T-cell subsets in myasthenia gravis (Skolnik et al), 170
- multiple sclerosis: heterology among early T cells and T_G cells (Traugott et al), 182
- Taurine
- taurine and hyperexcitable human muscle, effects of taurine on potassium-induced hyperexcitability of dystrophic myotonic and normal muscles (Durelli et al), 258
- Television
- complex partial seizures on closed-circuit television and EEG, study of 691 attacks in 79 patients (Escueta et al), 292
- Temporal lobe, surgery
- occipitotemporal epilepsy studied with stereotactically implanted depth electrodes and successfully treated by temporal resection (Olivier et al), 428
- Tetrabenazine
- treatment of hyperkinetic movement disorders with tetrabenazine, double-blind crossover study (Jankovic), 41
- Thinking
- seizures induced by thinking (Wilkins et al), 608
- Thoracic nerves, pathology
- thoracic root pain in diabetes, spectrum of clinical and electromyographic findings (Kikta et al), 80
- Tibial nerve, injuries
- selective fiber vulnerability in acute ischemic neuropathy (Parry and Brown), 147
- Time factors
- measurement of scrapie agent using incubation time interval assay (Prusiner et al), 353
 - slowly progressive aphasia without generalized dementia (Mesulam), 592
 - temporal profile of neuronal damage in a model of transient forebrain ischemia (Pulsinelli et al), 491
- Tomography, x-ray computed
- computed tomography in diagnosis of Canavan's disease (Andriola), LETTER, 323
- Tourette syndrome. *See* Gilles de la Tourette's disease
- Tremor
- brush writing in patients with tremor (Nomoto and Igata), NOTE, 434
- Tremor, drug therapy
- plasma propranolol in essential tremor (Marsden et al), LETTER, 107; reply (Sorensen et al), LETTER, 107
- Treponema pallidum*
- neurosyphilis: intrathecal synthesis of oligoclonal antibodies to *Treponema pallidum* (Vartdal et al), 35
- Trichinosis
- trichinosis associated with superior sagittal sinus thrombosis (Evans and Patten), NOTE, 216
- Trigeminal nerve, pathology
- detection of herpes simplex virus mRNA in latently infected trigeminal ganglion neurons by in situ hybridization (Tenser et al), 285
- Tryptophan, adverse effects
- myoclonus and ocular oscillations induced by L-tryptophan (Baloh et al), 95
- Ulnar nerve, physiopathology
- ulnar F-wave conduction velocity in epidural metastatic root lesions (Ongerboer de Visser et al), 142

Valproate. *See* Valproic acid

Valproic acid

monitoring of serum amylase levels during valproic acid therapy (Bale et al), NOTE, 217

Valproic acid, adverse effects

valproate-induced hyperammonemia (Batshaw and Brusilow), 319

Vascular resistance

sympathetic nerves exert a chronic influence on intact vasculature that is age related (Rusterholz and Mueller), 365

Verbal behavior

intrusions as a sign of Alzheimer dementia, chemical and pathological verification (Fuld et al), 155

Virus diseases

experimental models of virus-induced demyelination of the central nervous system (Dal Canto and Rabowitz), NEUROLOGICAL PROGRESS, 109

Visual pathways

dopaminergic deficiency and delayed visual evoked potentials in humans (Bodis-Wollner et al), 478

dopaminergic deficiency causes delayed visual evoked potentials in rats (Onofri and Bodis-Wollner), 484

Visual perception

"propranolol-associated" visual reduction: not an effect of propranolol (Ellenberger), LETTER, 637; tunnel vision and factitious mydriasis? (Corbett and Thompson), LETTER, 637; reply (Parrish and Todorov), LETTER, 638

Werdnig-Hoffmann disease, familial and genetic

case of congenital Werdnig-Hoffmann disease with glial bundles in spinal roots (Mitsumoto et al), NOTE, 214

Wounds and injuries

case control study of Creutzfeldt-Jakob disease: association with physical injuries (Kondo and Kuroiwa), 377
